In the originally published version of [Table 1](#), several tuition values were reported incorrectly. Specifically, the total tuition and corresponding cost-per-month figures for multiple programs, including SUNY Upstate Medical University, Thomas Jefferson University, the University of Nebraska Medical Center, and the Milwaukee School of Engineering, were inaccurate. These discrepancies were due to errors in transcription and/or calculation.

The tuition values have been updated to accurately reflect both in-state and out-of-state costs where applicable, and the corresponding monthly cost calculations have been revised accordingly. These corrections do not affect the overall comparisons or conclusions presented in the table.

The author regrets these errors and any confusion they may have caused.
